

# Metaphysical Anatomy

## Practitioners Certification Program

Welcome to Practitioners Certification Program!

### About the Program

The Certification Program is for Metaphysical Anatomy Students who would like to enhance their skills and become more proficient Practitioners. This program is made to be more knowledgeable, exciting, flexible, interactive, and effective. The program will allow students to enhance their skills anywhere, anytime and within a reasonably flexible schedule. After completing the program, the student will receive a Certification Program certificate (**MAT Certified Practitioner**) from Metaphysical Anatomy signed by Evette Rose.

### Certification Framework

The certification program is divided into two parts, the **Knowledge** and **Practice** section. Both should be completed concurrently and within the 6-month certification period. The knowledge section of the Certification Program will include Level 1 refresher online courses, webinars, videos, and any learning material that can be added later. The cases need to be done within the time frame.

The **Knowledge** Part of the Certification Program will consist of the following:

- Study: Attend and Understand Level 1 Teachings and Technique
- Nourishment: Attend Level 1 refresher course online.
- Attend 3 Level 1 courses as an assistant to their teacher

- Strengthen: Gain and strengthen knowledge by watching and understanding Level 1 Webinar replays.
- Ethics: Understand & Practice Ethics & MAT Code of Conduct.
- Test: Testing your expertise by taking the Certification Exam.

The ***Practical*** section of the certification Program involves developing individual Practicing healing abilities and includes submission of 10 successfully healed cases using Metaphysical Anatomy Technique only. The 10 healed cases comprise 5 simple Physical Healing cases and 5 Emotional Healing cases. All cases must be reviewed and approved by your mentor (Teacher).

## Course Requirements

To complete the program, candidates must meet the following requirements within six months of their application:

- Successful completion of all Knowledge Parts.
- Assisting in 3 MAT Level 1 Course
- Completion of 10 healing cases. All cases must be reviewed and approved by your mentor (teacher).
- Completion and passing of the examination
- Submission of a portfolio that includes a completed Clients Session Sheet and mentorapproved ten healing cases.

If the applicants fail to meet the requirement, they can re-apply for the program again in one month.

## Mentoring Program

The Mentoring Program offers extra support from the teachers to their students who want to become Certified Practitioners, to provide guidance and encouragement to develop MAT proficiency and competence to you, the Metaphysical Anatomy candidate/mentee.

- You will be assigned to your teacher to be your mentor for the program (or another teacher if your teacher is not available).
- You will need to contact your mentor within one week of receiving your program application approval and meet for guidance and schedule.
- You and your mentor will set up a meeting schedule together with the Mentee group for the duration of the program. Your mentor will provide support and guidance as you complete your knowledge & healing cases. You are expected to have at least one face-to-face meeting (in-person, Skype, Zoom, etc.) with your mentor.

Being a mentor and a mentee will require diligence. There is a compelling need to commit to regular meetings (and actually meet), outline progress, and learn to operate a new relationship with imperturbability.

## Policies and Procedures

**Dismissal from the program:** Candidates must be actively engaged in making progress towards their certification and meeting program progress & requirements. Failure to achieve progress will lead to performance review, which may result in dismissal from the program.

**Drop out from Program:** Candidates who wish to drop out from the MAT Certification Practitioners program officially must submit a formal letter to their mentor and [info@metaphysicalanatomy.com](mailto:info@metaphysicalanatomy.com). Candidate will not be eligible for any refund.

**Request for Extensions:** The program ends in six months from the date the application is approved. No extensions will be granted unless explained serious circumstances & upon Mentor approval & final approval of MAT Admin.
